Wartime Restrictions and Priorities

Wartime restrictions and priorities have affected the Funeral Supply Industry as they have all others. Hence, we of the Funeral Profession are curtailed in proportion,

However, our Firm's long established practice has been to buy from only well established and reputable Supply Houses. Consequently, for us the curtailments have been minimized.

We therefore, can offer our chentele the same high quality and variety of articles of merchandise incident to the Funeral Service

It remains for us to keep the fires hot and the hammers going in order to complete the job in '44.

As in '43 there's work that everyone can do. We must produce and conserve. Food, munitions, fats, paper and metal scrap are needed. We can do without or get along with what we have. We can put every spore aime and dollar in War Bonds and Stemps.

We pledge our cooperation in every movement looking to the betterment of the community and winning of the Victory.

Marion, Onio, and until health failed him he served as a railroader in the car department.

The following is a poem written by the wife of the deceased;

Why should our tears in sorrow flow,

Pain sits no longer on his brow Where lies the calm of death, Oh, how we'll miss you, Roy, As the years go fleeting by.

Home is not home without you As we enter with a righ. Though our hearts are torn and

bleeding. Through faith we see His hand. By grace we'll meet you. Dad. With Jesus in that far land.

A Resolution . . .

Adopted by Universal Cooler Corp. Employees for the New Year, 1944

We solemnly pledge that we will pour into the production of refrigeration for the preservation of food for our buddies, so full a measure of our muscle, mind and money, that the fighters of United Nations will never lack the energy supplied by food and bonds to blast into oblivion the enemies of free labor where ever they may be found.

We are the workmen whose skill and devotion to duty has produced a great amount of the refrigeration units for our Fighting Forces. We have helped to make the Universal Cooler Corporation one of the largest producers in the world of this equipment for the Armed Forces. As the mighty United Nations offensive pushes on to War Victory, we are proud of our fellow employees and buddies on the battle fronts. This pledge we have taken to speed the day of Freedom from Fears, Freedom from Want, Freedom of Worship and Freedom of Speech will be fullfilled to the utmost of our ability.

We are thankful that we are now well on our way in the great offensive against the Axis Powers.

Signed by

The 915 Workers at The Universal Cooler Corp.

LUMBER has gone to WAR

Here Are Some Pertinent Facts:

- 36 Billion feet of lumber was used in the war program in 1943.
- 32 Billion feet of lumber was produced.
- 4 Billion feet deficit was taken out of stock piles such as ours.
- 4 Billion feet deficit is estimated for 1944.
- (4 Billion feet would build a 30 foot board walk around the world at the Equator.)
- 14 Billion feet was used in war production crating alone.

We are proud of our small part in supplying over 3 million feet for crates and various types of war production during the past year.

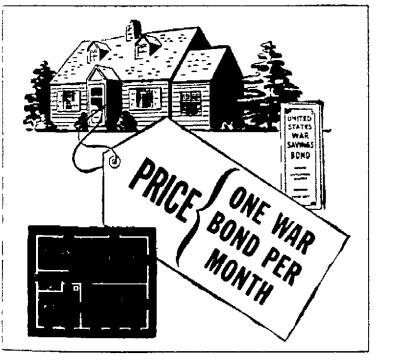

This is the reason we have been unable in 1943 to supply you with all the material you wanted, for we are not among those "smug" suppliers who express apparent satisfaction at being able to refuse to serve their old customers with a glib "Get yourself a priority." We are deeply conscious that our old customers will be our best customers when victory is won

However, we are of the firm be ief that

There is a war to be won FIRST, and lumber's most essential use is to so crate export munitions that they can be compactly stored in a ship's hold and arrive at their destination free from damage

Also, aside from necessary repairs, you will receive better service, finer quality material, and more value for your dollar if you postpone your non-essential work until later or use strictly non-critical materials.

So, a Happier New Year for 1914 and remember when Victory is ours we will still be wanting your lumber business

Yule Mail Last Month Tops Large Total of Year Ago

Marionites kept the postoffice doors swinging steadily during the holidays. The amount of mail handled during the month exceeded the number of letters handled: luring the same period last year. According to the Marion office's records, 821,900 machine cancellations were recorded during last month, an increase of 8,100 over the same period last year. Although more cancellations were recorded for the month, the largest total cancelled on one day. 75,900 on Dec. 21, was not as high as the 98,200 peak on Dec. 20 of 1942. Because Marion residents responded to the "mail early" appeal, the mail was distributed more evenly and such a large amount for a single day was avoid-

ed last month.

Homer D. Cole, postmaster, announces that more than 50,000 incoming letters passed through the postoffice daily last month exlusive of the outgoing mail.

Approximately 35 extra em-ployes were in the post office in addition to the regular staff. Mr Cole also said that approximately 42,000 cards and envelopes came o the office that had to be checked for correct names, street numbers, etc. It was necessary to open much of this mail in an attempt to find the name of the sup-posed recipient or a return address. If no clue was found, the mail was discarded.

A sharp increase in the amount of air mail now passing through the office was also reported, but figures were not available. Since so many of the boys are stationed in countries that are reached quicker by air mail, families and ervicemen alike are taking adantage of the faster service.

In some cases where it takes from three to five weeks for reguar mail to reach some outlying post, envelopes bearing an ai mail stamp can sometimes be de-livered within a week or ten days

LaRue Junior Play To

Be Presented on Jan. 5 The Junior class of the LaRue High school will present "Wed-ding Spells" a farce in three acts, Jan. 5 at 8 p. m., under direction of Miss Fae Burr. In the cast are Jane Spitzer, Edwin Denmar Varren Kramp, Arthur Price Mary Sager, Alice Johnson, Ruth Moore, Betty Rice, Marjorie Watkins, Aaron Parish, James Leibold, and Louise Trapp.

ary a rest, among the meany-

To Start in 1944 make st Oally one access was to-

WIN THE WAR in

WE'VE all got to give our young champion '44 all the backing we can . . . to help him win this fight soon! Sure we've all got the will to win, but it takes a lot more than that alone! It takes tanks, guns, planes and bombs! And it takes the loan of your money to buy them. Remember, your brothers', sons' and husbands' lives may dépend on that equipment! It's up to us to get it to them . . . as much as they need . . . as quickly as possible . . . so they can black out the Gerries and the Japs, and make all our dreams of peace come true soon! Put every penny you can into that soundest of all investments . . . War Bonds and Stomps, and make '44 "the champ" of Victory!

The parity price on Dec. they sound like the sophomoric 15 was \$1.08. In contrast with vaporings of doctrinnaire ghosts its present price of 3 cents above

"If even one statesman," said a biologist friend of mine, who spent his life experimenting with the fruit fly, drosophilin, "could prove that he could keep even prove that he could keep even so small a community as a jar of drosophilia alive, for one year, keep them fed and keep them healthy, keep the community breeding and growing, there might be some hope for humanity. But not one has the technical knowledge or the patience to control even so simple a community. How then can they plan a world?"

No, this year you are going to suffer for the fact that the statesment of the past had no scientific training and no real cathelic humanity. This includes all English premiers for the past 100 years.

manity. This includes all English premiers for the past 100 years, especially Lord Salisbury and ending with that stupid, gullible, ignoble shuffler, fool and coward—Neville Chamberlain.

The Versailles conference did its share!—There are a dozen examples, but one is enough. Transylvania had been part of Hungary since 1004 A.D. But Hungary had been a bad boy in World War I, and Rumania had been a good boy, so Transylvania went to Rumania. Isn't that enough to sow the germs of a new war? If your son is wounded in Italy this year, you can lay a good share of the biame at the feet of Messrs. Lloyd George, Clemenceau and Orlando.

Of course, that is all water over the dam. But why go into the future under such leadership? Make statesmen out of the doctors—they couldn't do worse than the present incumbents. Doctors not only have the scientific spirit, but they certainly know human nature and they operate without prejudice. They treat Negroes,

ture and they operate without prejudice. They treat Negroes, Jews, agnostics. Mohammedans, with the same consideration in present the same consideration in the same consideration.

terror had Stephen Redfleid more zargorie than human, his identical on Liquor guests of the Harding Hi-Y and by the throat. His eyes roved from fingers were twitening uncontrol-
